LINEAR

LINEAR
SPEED-LINE TABLETOP & PORTABLE EXHIBITS

The Linear Back Wall Display System provides the looks, style and sophistication of a semi-custom exhibit with the ease, convenience and value for money that you're looking for. The Linear range of portable exhibits is designed to be a quick setup solution for trade shows and semi-permanent displays. Choose from our wide selection of standard tabletop, 10' and 20' linear kits, all supplied "ready to use" complete with structure, integrated tables and lighting in a UPS compliant molded case. Add a vinyl or inkjet printed graphic - installation is a breeze and the light weight, sturdy construction is strong enough to support a 21" LCD.

Standard production time line for these products (1-5 Ct.) is two weeks.

Standard production time line for detachable graphics for fabric display (50-100 sq. ft.) is 7-10 days.
